D.1.2 BACKGROUND AND EXPERIENCE

Please briefly present your organisation (e.g. its type, size, scope of work, areas of specific expertise, specific social context and, if relevant, the quality system used). Limit: 1000 characters.

Konya Chamber of Commerce Vocational Training Center is a training company founded in the end of 2019 and focused on gaining a professional skill and the improvement of human performance. The aims of the KTO Vocational Training Center is to provide qualifications for their available profession, to increase the interest of the private sector in vocational education, to increase the workforce by developing the content of vocational training and making more contribution to individuals and firms.

Konya Chamber of Commerce Vocational Training Center has a total of 21,000 m² of training complex, with laboratories equipped with advanced physical infrastructure and equipment, 16 classrooms, 14 workshops, 5 computer laboratories, conference and seminar halls and an accommodation center possessed a capacity of 196 people.

We are a new company which learns from the experience gained by its staff and trainers, professionals with years of background in the fields of youth exchanges programs, training and the development and management of transnational projects in the frame of Erasmus + Program.

What are the activities and experience of your organization in the areas relevant for this project? What are the skills and/or expertise of key persons involved in this project? Limit: 1000 characters.

Though it is a new Vocational Training Center, KTOVAT staff has a large experience in the field of Machining, Mig-Mag Welding, Electric Arc Welding, Steel Welding, Cnc Machines, Cnc Turning Operator and programming, Macine Technical Drawing, Press Operator, Measurement-Control Methods and Techniques,

Solidworks, Solid Cam, Autocad, 3DS Max. In addition to these, we provide training for computerized accounting, foreign trade, Python Programming, Java Programming, Kotlin Programming, Health and Safety at work, entrepreneurship, Plastic Injection, Lean Production, Digital Transformation and EU Erasmus+ Projects Preparation Techniques.

-BRING IN SKILLED LABOUR TO KONYA PROVINDE: The project is founded by the Ministry of Industry and Technology. With the project, we aim to 3 preredence;

- a. Increasing Employability,
- b. Social Entrepreneurship,
- c. Social Inclusion and Responsibility.

Target Groups;

1. Vocational High School Students,
2. Workers,
3. Syrians.

Total 310 beneficiaries received in education in the field of;

1. Mig-Mag Welding with Welding Robot (8 days – 64 hours)
2. Gas Metal Arc Welding (10 days – 75 hours)
3. Submerged Welding (5 days – 28 hours)
4. Machining Technique Development and Compliance Training (10 days – 80 hours)

Also, the project aims to not only vocational training but also social integration with Syrians and host community members.

Skills and expertise of key staff involved in the project. Limit: 5000 characters.
